**6 BENEFITS OF
SIX SIGMA
FOR INTERNATIONAL
BUSINESS
PROFESSIONALS**

International Business comprises of all commercial transaction between two regions, countries beyond their political boundaries. It refers to all those business activities which involve cross border transactions of goods, services, resources between two or more nations. International Business with Six Sigma certification Enhance your cross-cultural management, communication skills in more than one way.

Six Sigma Skills for International Business is there for great help to deal cross border relations and packaging deals; it assists in building the confidence to influence clients, suppliers and colleagues from a variety of countries, it provides the cross-cultural leadership competence that has become essential for businesses and managers to succeed in today's global business landscape.

An international business with Six Sigma certification has many options for doing business, which includes, Exporting goods and services, giving license to produce goods in the host country, starting a joint venture with a company, Opening a branch for producing & distributing goods in the host country, providing managerial services to companies in the host country.

In international business, all the operations are conducted on a very huge scale thus require planning and step by step approach in packaging each operation in units , here Six Sigma plays a very important role in defining and laying out procedures for quality control checks which in turn reduce work force and time energy and avoid wastage and pilferages.

KMPG Six Sigma is beneficial in integrating the economies of many countries. This is because it uses approach from one country and patches with finance, labour and infra-structure of another country. It designs the product in one country, produces its parts in many different countries and assembles the product in another country. It sells the product in many countries, i.e. in the international market.

As International business has to face too much competition in the world market. The competition is between developed and developing countries. Here Six Sigma plays an important role in maintaining right to equality, right to maintenance, freedom and expression and self-value between two participating nations. All in All, International Business with Certification not only enhances global economy but also develop healthy commercial relations between countries.

STILL HAVE DOUBTS ?

Not sure how Six Sigma Certification can benefit you ?
